

Eterna *Hybrid* Exchange

Decentralizing a Centralized World

1 Eterna *Hybrid* Exchange

Unrivalled Liquidity

Eterna DEX can access
\$3 billion in CEX liquidity

Anonymity

No KYC required

Outstanding Services

Spot Trading, p2p,
and Cross-Chain Swap

Unique Trading Tools

Buy & Sell Signals + Instant
Position Conversion

2 *The Problem* for Perpetual Futures DEXs

Perpetual DEXs offer a small number of trading pairs (40–60)

Perpetual DEXs offer few utilities (no spot trading, p2p trading, or cross-chain swaps)

Perpetual
Futures

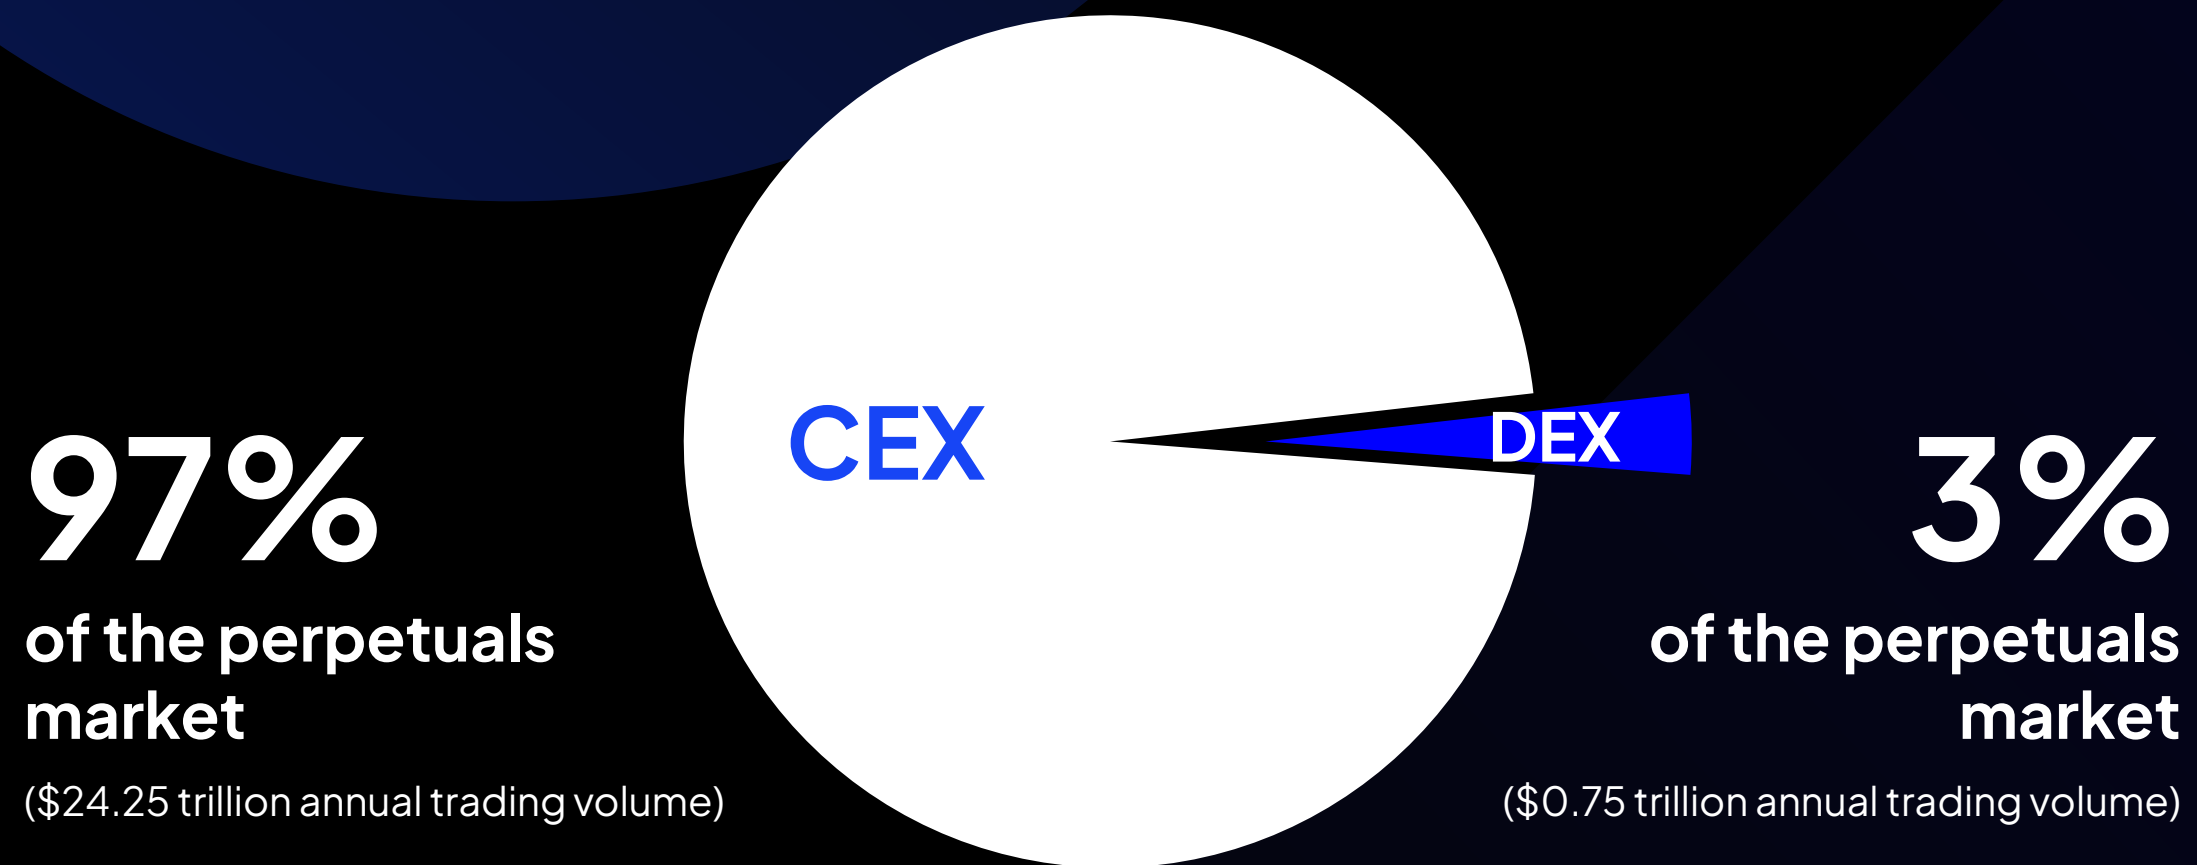

Perpetual DEXs suffer from shallow liquidity

CEXs dominate the perpetual futures market, and most DEXs attract a small number of DeFi traders

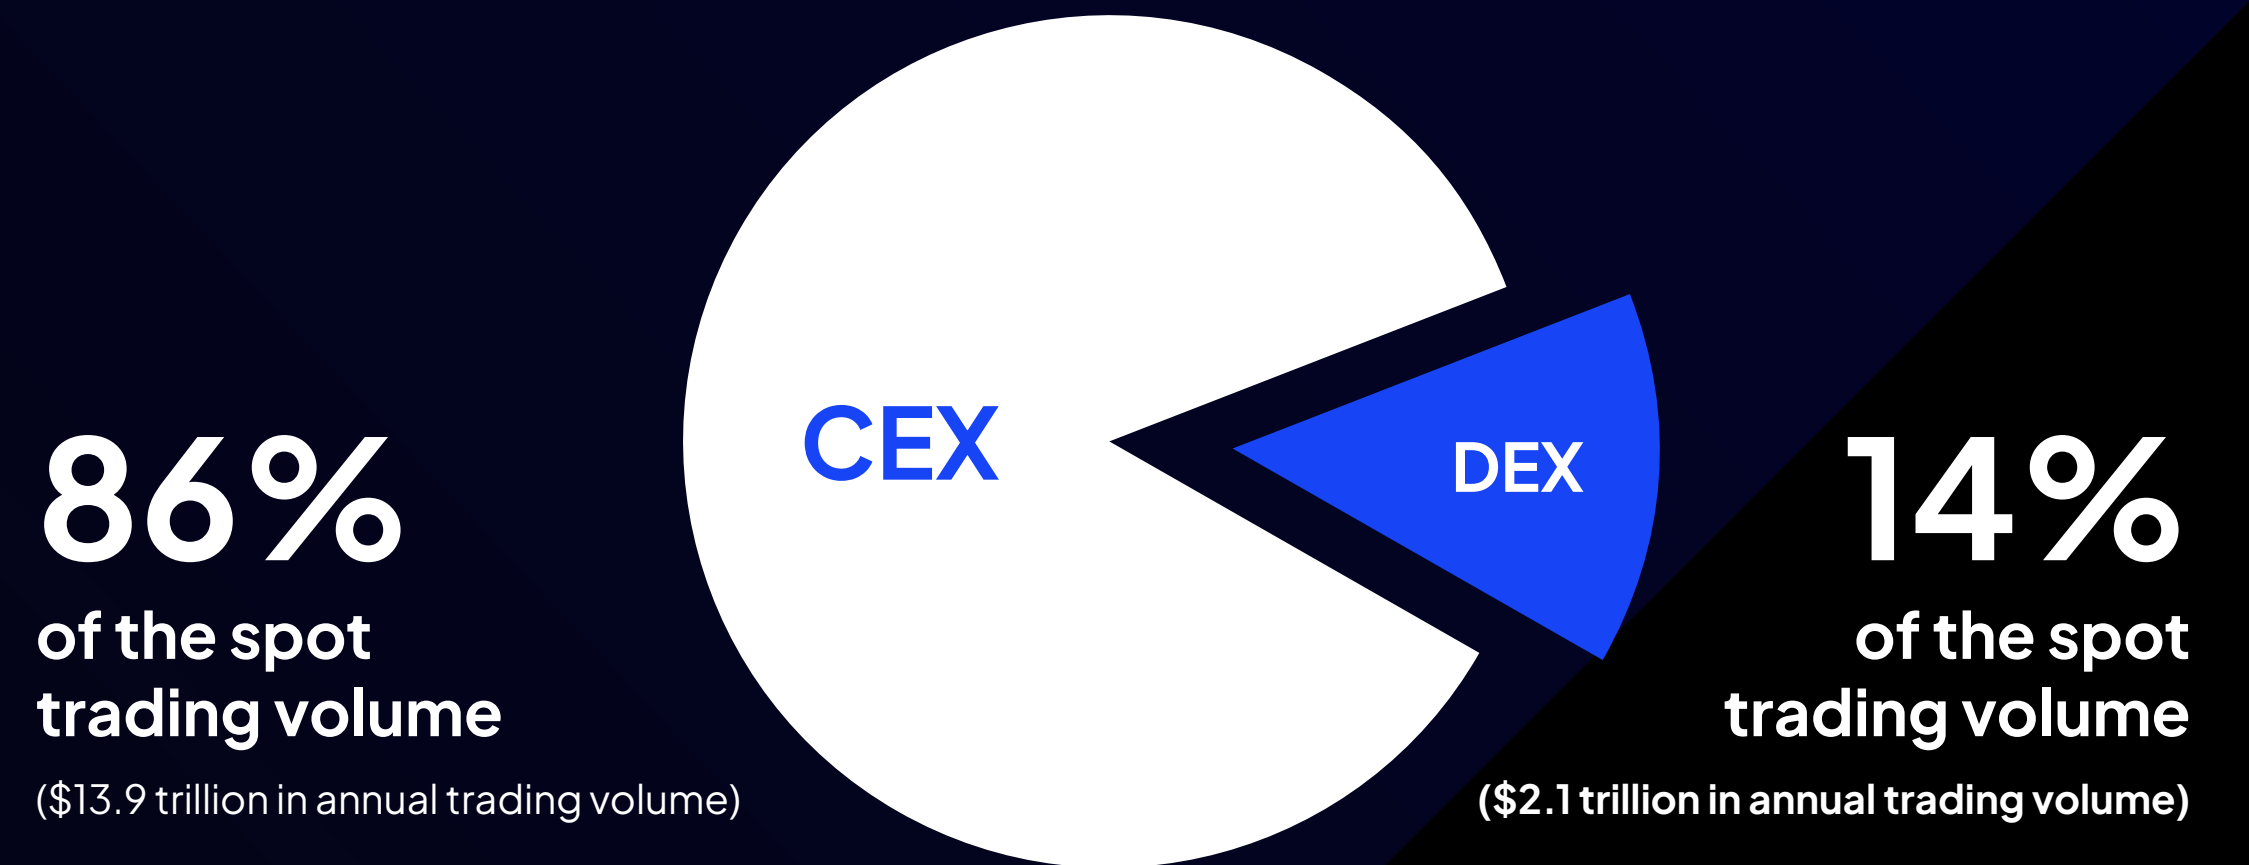

3 Perpetual DEX *Growth* Potential

Total Annual Perpetual Futures Trading Volume = **\$25 trillion (2022)**

Annual Perpetual Futures Volume
CEXs vs DEXs (2022)

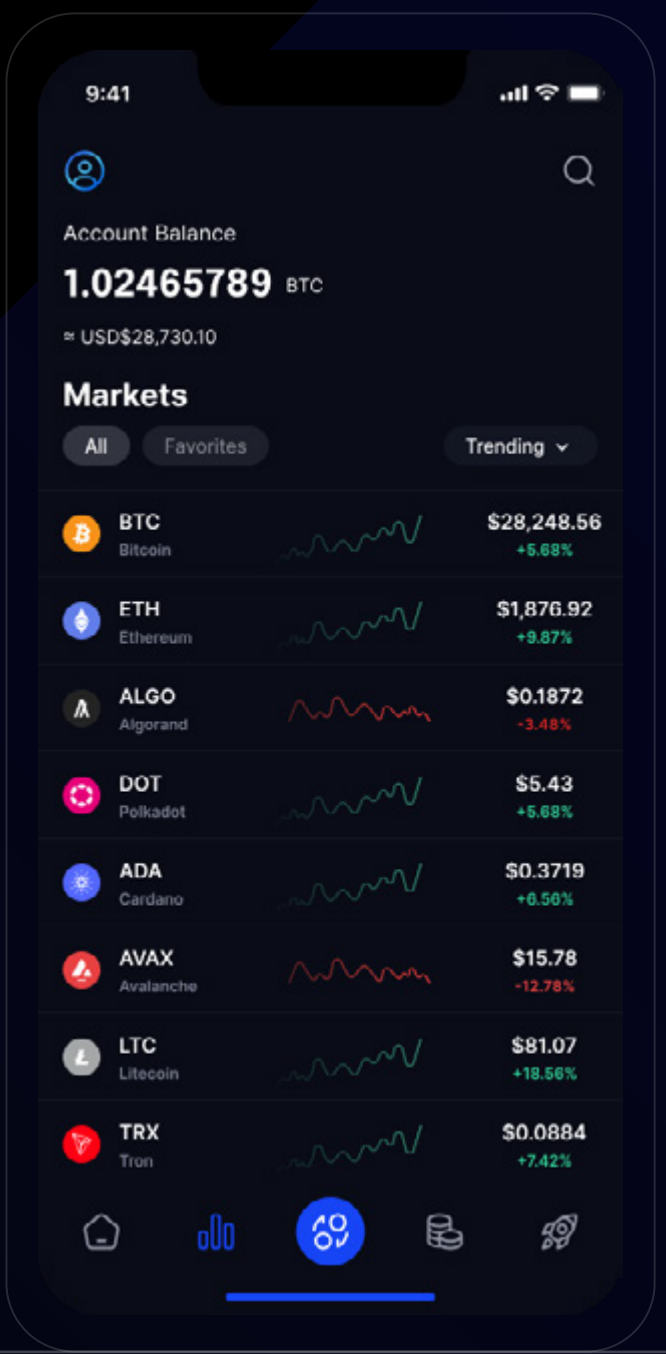

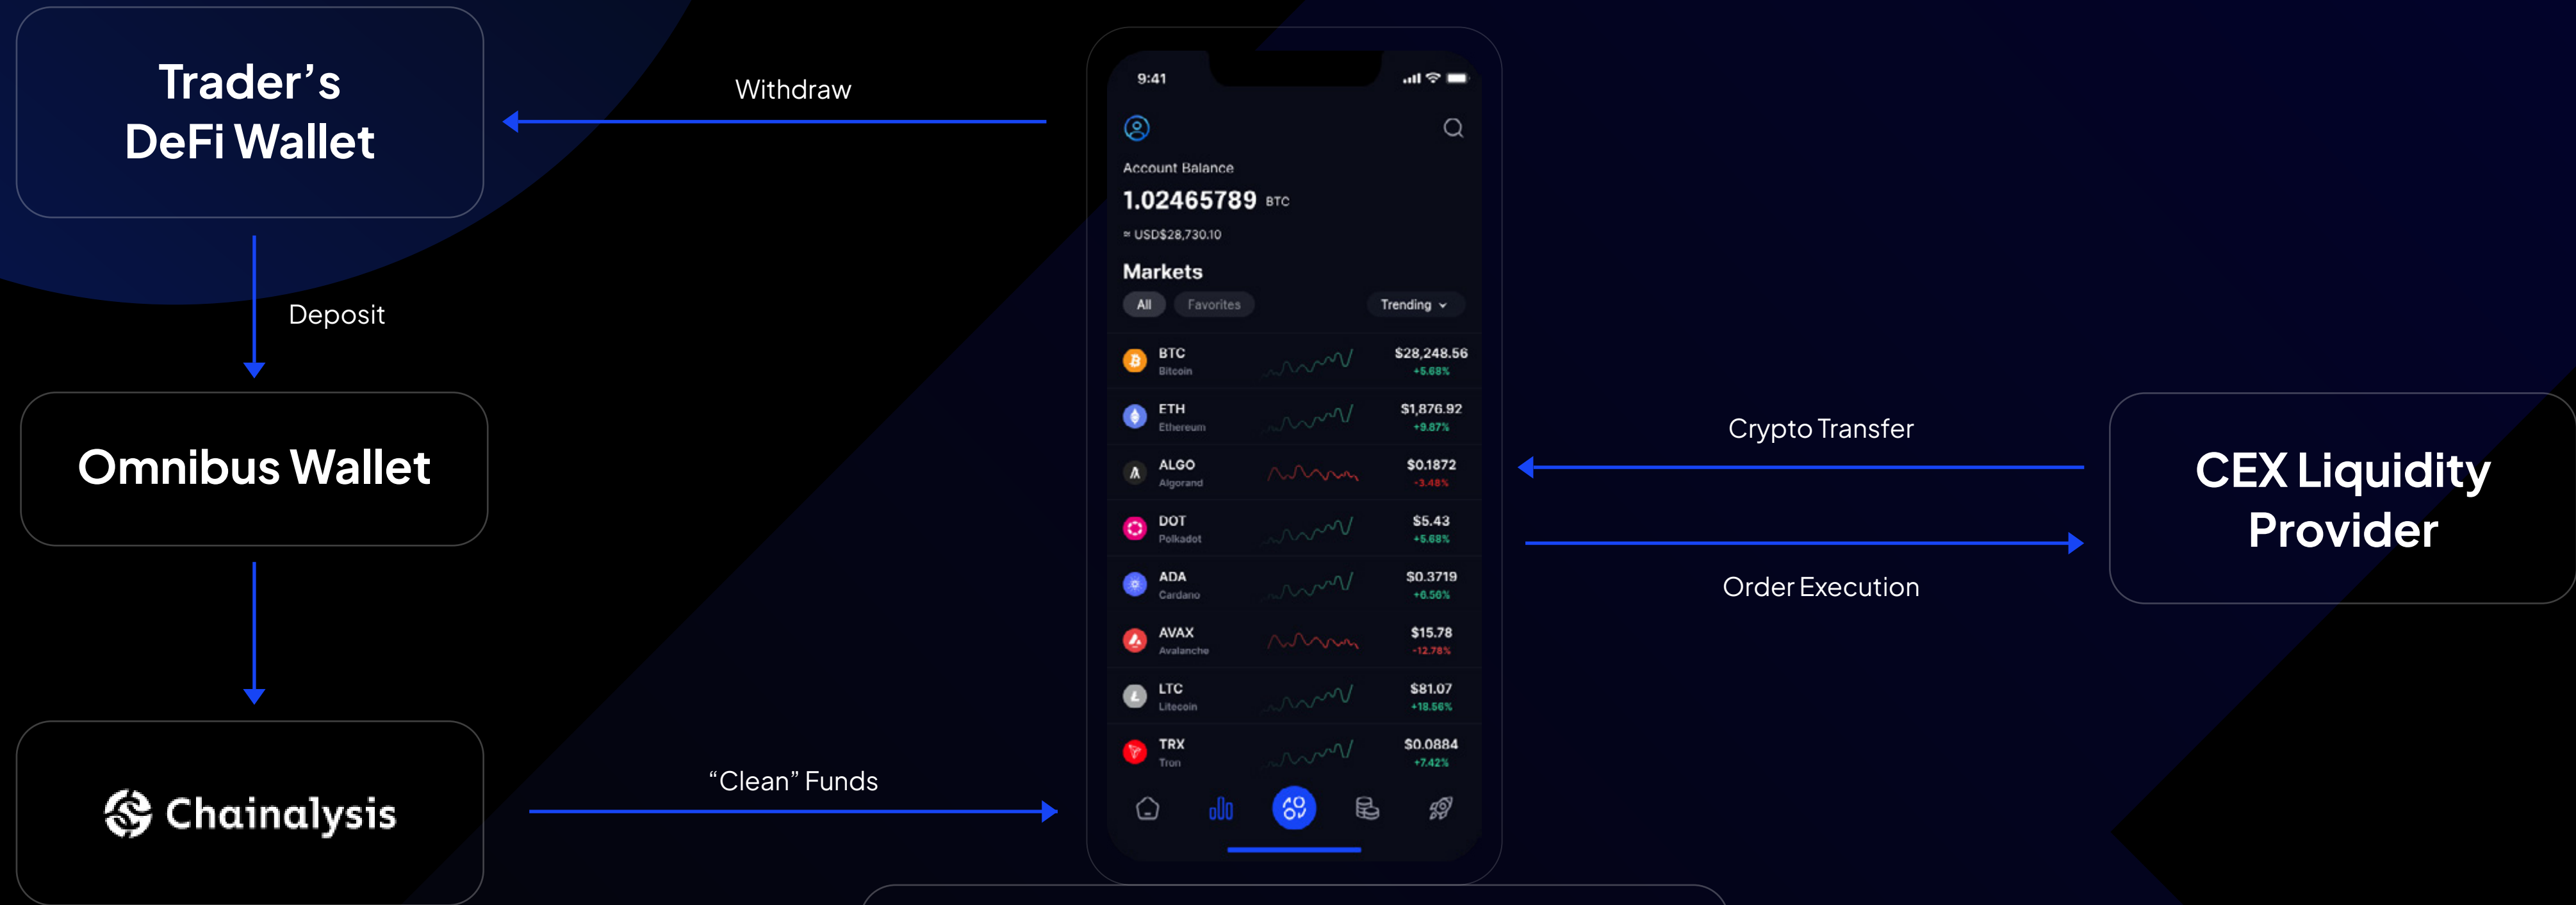

Annual Spot Volume
CEXs vs DEXs (2022)

Conclusion:

The growth potential for Perpetual DEXs is enormous and will only be fulfilled once the limitations mentioned above are solved. Eterna Hybrid Exchange is the only available solution.

4 Eterna's *Solution*

4 Eterna's *Solution*

Eterna combines the best features of CEXs and DEXs, and can therefore encompass the entire perpetual futures + spot market:

Hybrid Perpetual: Eterna is the first DEX to access CEX liquidity pools without KYC

Maximum Liquidity: Eterna has access to \$3 billion+ in Bybit liquidity

Greater Consumer Choice: Eterna offers 200+ perpetual futures + 300 spot trading pairs, while dydx, the leading competitor, provides only 38 futures contracts and spot pairs

High Leverage + Position Size: thanks to our deeper liquidity, Eterna allows traders to open positions that are 10-20X larger than other DEXs

Universal Swap: Eterna's universal swap allows investors to trade across Ethereum and BSC DEXs, with new chains added regularly

4 Eterna's *Solution*

Eterna monetizes efficiency gains

- 1 Eterna unites DEX & CEX capabilities: providing 200+ perpetual futures trading pairs, and 300+ spot pairs
- 2 Eterna includes a **universal swap** and **p2p trading**
- 3 **Position Conversion**: Eterna permits investors to instantly **convert long positions to short positions**, and **short positions to long positions**
- 4 **Buy & Sell Signals**: Eterna's custom trading chart contains **26 Buy & Sell indicators** and a **market sentiment scale**
- 5 **Copy Trading**: Eterna investors can copy the best traders in the market.
- 6 **Eterna's Trading Chat**: allows private communication between traders.

5 Eterna's *Native* Token: \$EHX

Staking Rewards

Eterna offers generous staking rewards

Profit Sharing

Token stakers collectively receive 50% of net trading fees

Utility

Eterna's native token is used for staking rewards & profit-sharing, which establishes a price floor and stimulates price appreciation.

6 Eterna's *Business Model*

Revenue Generation:

Trading fees, liquidation fees, and other transaction fees.

Strategy:

Eterna captures a market-share by:

- **Lowering entry barriers for new investors** → One platform = entire perpetual market with no KYC requirements
- **Providing DEX investors** more straightforward access to CEXs alike exchange
- **Minimizing the costs** of trading across perpetual markets

Value Proposition for Investors:

50%

of net trading fees are distributed to EHX token stakers

Eterna *Beats* the Competition

No other DEX combines CEX liquidity with so many unique features

	 ETERNA	 dydx	 ApolloX	 GAINS	 GMX
Hybrid	✓	-	-	-	-
Proprietary Trading Tools	✓	-	-	-	-
No KYC access to CEXs	✓	-	-	-	-
Perpetual Pairs	200+	38+	68+	45+	4+
Spot Trading	300+	0	4	0	0
Leverage	1 – 100 x	20x	125x	150x	50 x
Networks	Ethereum, BSC + Swap	Ethereum	BSC	Arbitrum	Arbitrum

Eterna will ultimately host 16 chains for perpetual trading and our swap

Competitor's *Disadvantages*

DEX only

None of the leading CEXs connects to DEXs, so they have limited functionality, liquidity and pair count.

Limited

None of our competitors allow full access to perpetual futures markets.

No Trading Advantage:

None of our competitors offers proprietary trading tools.

Eterna's *Advantages*

Unique

DEX advantages +
CEX liquidity pools,
number of pairs
and utilities

Anonymous CEX Trading

Access CEX trading
without KYC

Minimizes Transaction Costs

Eterna's fees are the
lowest in the market,
matching dydx, ApolloX,
GMX, and other leading
perpetual DEXs

Minimizes Investment -Time:

Access to the entire
perpetual market, spot
markets, cross-chain
investing, and p2p trading
