

Decentralizing a Centralized World

Eterna *Hybrid* Exchange

Eterna *Hybrid* Exchange is the first crypto exchange to combine the capabilities and liquidity of a CEX with anonymity and security of a DEX.

Eterna offers more perpetual futures contracts and spot trading pairs than any DEX in the market, combined with the lowest trading fees, bar none. **Eterna's unique decentralized trading engine** provides DeFi investors access to all the functions and liquidity of a CEX, without the need for KYC.

Eterna's *Hybrid* Architecture:

Trade on a CEX, without the need for KYC. **Eterna Hybrid DEX** is the first exchange to **combine over \$3 billion in liquidity**, and the **full range of CEX functions**, with **the anonymity and security of a DEX**.

Eterna's *Features*:
